

APPARELS ENJOY LOW IMPORT TARIFFS IN THE UNITED STATES

STORMFLEECE® PRO Using Standard AATCC 35-Water Resistance: Rain Test.

CUSTOMIZABLE PATTERN

Different geometrical shapes tailored to your needs.

S.Café® PATENTED TECHNOLOGY PLUS

WATER RESISTANT

Water repellency /DWR/
Passes rain test standard.

WIND RESISTANT

Wide array of wind
resistant ratings test.

DURABLE

Washing machine friendly
/No risk of delamination.

ABRASION

Fit for outdoor sports.

MODERATE STRETCH

Designed for mobility.

BREATHABLE

Dissipates excess heat.

LESS MICROFIBER LOSS

Densely woven minimizes
the chance of losing
fibers during laundry.

SOFT LIKE KNITTED

Looks like woven,
feels like knit.

LESS CARBON FOOTPRINT

Less energy consumption
in production
/No lamination and
bonding process.

STORMFLEECE®'s unique patented single layer woven technology unites softshell and fleece into one, achieving the right balance between breathability, wind resistance and/or water resistance. Its densely woven surface blocks wind and/or water without the need for lamination making it durable to washes. With its single layer construction, the fabric is lighter and less bulkier compared to 2 or 3 layer fabrics.

Huggably soft

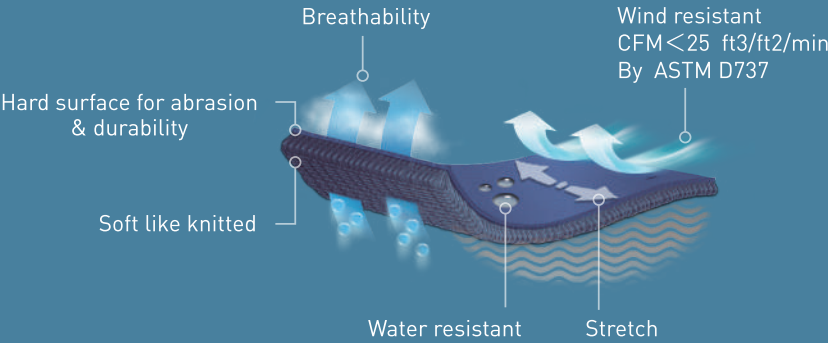

"buyers are going for technical fabrics that are cosy, like plush toys for children..."
